Regulation 1907/2006/CE "REACH"

The Company

TRANSTECNO S.r.l.

**Via Caduti di Sabbiuno, 11/D-E
40011 Anzola Emilia (BO) – ITALIA**

With reference to regulation
1907/2006/CE

THE EUROPEAN PARLIAMENT AND COUNCIL

Concerning the registration, evaluation, authorization and restriction of chemical substances
(REACH)

(Registration-Evaluation-Authorization and Restriction of Chemicals)

Declares that:

It produces, purchases or uses in general products that could contain substances that are among those that should be registered but in quantities which are considerably less than a ton per year and with concentrations of less than 0,1% of the weight/weight of the product.

Therefore, as specified in Article 7 Paragraph 1 of the REACH regulation, these substances are not subject to compulsory registration.

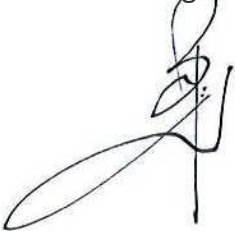

The investigations carried out of all our suppliers, to check their position with respect to the REACH regulation, allowed us to verify that the majority of them are already REACH certified and approved.

As a consequence of the above, our customers are not required to register any substances as a result of our products.

That stated above is true relative to the substances listed on the ECHA website as of today.
